4. 5 Conversion Optimizations for Alfido Tech

- **1. Optimize High-Dropoff Landing Pages:** Streamline UX and reduce load speeds on top entry pages experiencing elevated bounce rates to retain initial session momentum.
- **2. Strategic Call-To-Action (CTA) Placement:** Position above-the-fold CTAs on top-traffic landing routes to guide users deeper into high-converting funnel pages.
- **3. Re-engage High-Volume Referral Traffic:** Tailor landing experiences for visitors arriving from top referral channels with personalized welcome banners or offer codes.
- **4. Exit-Intent Popups & Retargeting:** Deploy targeted exit-intent prompts on key conversion pages to re-capture abandoning visitors before they bounce.
- **5. Mobile & Speed Optimization:** Conduct cross-device friction audits to improve mobile responsiveness and ensure fast page load times across all traffic segments.
